## WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

**PREFACE**

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

An explosives storage area is approximately 7 kilometers north-northwest of Tartu (Figure 1).

The installation is secured, covers 65 acres, and contains 10 ammunition storage buildings and 14 support buildings (Figures 2 and 3). A 50-acre secured probable POL storage area approximately 1,100 meters north-northeast contains 7 large semiburied probable POL storage tanks and 20 support buildings.

A comparative study of 7 KEYHOLE missions from [REDACTED] reveals little physical change, but continuous activity.

The [REDACTED] edition of the Bombing Encyclopedia lists this installation as Tartu Petroleum Products Storage PUG ([REDACTED] coordinates 58-26-50N 026-41-51E).

DESCRIPTION OF INSTALLATION

Railroad Service

A rail spur from the Tartu-Voldji main line terminates approximately 300 meters north-east of the explosives storage area. This spur also serves the probable POL storage area 1,100 meters northeast.

Road Service

The installation is served by the Tartu-Voldji all-weather road.

Ammunition Storage Area

Area F contains 10 ammunition storage

buildings and 14 support buildings. The ammunition storage buildings and 10 of the support buildings are within a fenced area, 2,500 by 1,050 feet.

POL Storage Area

Area G contains 7 semiburied probable POL storage tanks and 20 support buildings. The probable POL storage tanks and 10 of the support buildings are within a fenced area, 1,700 by 770 feet.
